The Master's Program

Providing Relevant Skills Needed for Today's IT Workforce

The SetFocus Master's Program is a comprehensive training and career development program designed to have a lasting and measurable impact on the careers of IT Professionals. Our focus on challenging, real-world applications and rapid skills development provides a competitive edge in today's IT job market.

Integrated and Leading Edge Training

The Master's Program's integrated, custom-blended curriculum is based on Microsoft Official Curriculum (MOC), enhanced with exclusive and tailored content. Traditional lectures combined with hands-on labs, real-world projects and practice exams allow students to apply, test and retain their newly acquired knowledge and skills. All students complete a capstone project which requires them to demonstrate necessary soft skills such as communication, teamwork and collaboration.

Each quarter, our curriculums are evaluated and updated based on recommendations and guidance from leading industry partners and marketplace assessments.

Career Development

Master's Program students receive critical job search and personal marketing strategies to increase their visibility, employability and career resiliency. In addition, SetFocus markets students directly to its network of hiring partners and recruiters facilitating introductions, interviews and follow up.

The Master's Program: .NET

In-depth .NET training program thoroughly covering the key components necessary to plan, build, and roll out a distributed application with Microsoft Visual Studio.

Typical positions attained following completion of the .NET Track

- Developer
- Web Developer

Branch Manager
Robert Half Technology

Training and Mentoring Staff

Our instructors and teaching assistants are qualified and experienced in the industry. All of our instructors are Microsoft Certified and have a wide range of experience with Microsoft technologies. In addition, they possess the ability to connect with students and consistently go above and beyond to provide valuable insight and knowledge.

Flexible Training to Fit Your Lifestyle Full or Part-Time Program

Students can choose to attend The Master's Program training full-time or part-time. Full-time classes meet Monday-Friday for the duration of the course. Most part-time classes meet two evenings per week and alternating Saturdays for the duration of the course.

On-site

Classes are held at our state-of-the-art training facility in Parsippany, New Jersey.

Online via The GRID®

Students can choose to attend class remotely, using a video conferencing system that provides live, face-to-face instructor-led training.

The GRID combines the nuances and interaction of the classroom with the convenience of the Internet. The result is a learning experience that offers students in remote locations peer-to-peer interaction and one-on-one time with the instructors.

The GRID

The Master's Program Difference

- A program created by IT professionals for IT professionals
- Highly selective admissions process
- 100% focus on marketplace skills gaps
- Specialized skills in .NET, SharePoint, SQL Server or Microsoft Business Intelligence equip students for a long-term career with growth potential
- Code review, labs and exams track and reinforce technical knowledge
- Labs and real-world team projects build collaboration and communication skills
- Career workshops and coaching help develop job strategies and personal marketing skills
- Network of national employers and recruiters seeking qualified talent and skill sets

About SetFocus

Since 1997, SetFocus has been a leader in selecting, training and placing Microsoft professionals nationwide. Working with a network of industry experts, SetFocus identifies areas where IT skill gaps exist, develops relevant training programs and then selects and sources qualified talent to its network of hiring partners seeking specialized skills. Over the last decade, over 1500 of SetFocus graduates have found rewarding careers as Programmers, Software Developers, Business Analysts, DBAs, and other positions using Microsoft technologies.

SetFocus is currently ranked among the *2008 Inc. 5,000 Fastest Growing Companies in America* and the *2008 New Jersey's Fifty Fastest Growing Companies*.
