## SharePoint Master's Program

Comprehensive training designed to prepare you for the development opportunities with Microsoft's most recent release of SharePoint.

During this Master's Program, you will dive into **Windows SharePoint Services 3.0 (WSS)** and **Microsoft Office SharePoint Server 2007 (MOSS)** where you will learn:

- Deploying, managing and maintaining a SharePoint installation
- SharePoint Development using Visual Studio 2008
- MOSS 2007: Branding and Web Content Management
- Moss 2007: Business Processes and Workflows
- MOSS 2007: Portals

Curriculum subject to change

The Master's Program uses a custom-blended curriculum based on Microsoft Official Curriculum (MOC) enhanced with exclusive, tailored content, which includes exams, labs and projects.

### Career Development

Candidates enrolled in The Master's Program receive critical job search and personal marketing strategies to increase their visibility, employability, and career resiliency.

In addition, SetFocus markets Master's Program candidates directly to its network of hiring partners and recruiters facilitating introductions, interviews, and follow up.

For enrollment information contact an Admissions Representative at **1-866-91-TRAIN**.
